

Welcome to Mercy!

Hello St. John's and welcome to Mercy! I began working here a year ago to help implement Epic (our electronic health record). It is one of the coolest tools we use at Mercy. It will eventually allow caregivers the ability to see patient records across Mercy.

While St John's Joplin won't go live for several months yet, we're looking forward to having you as part of our one-patient-one-record care. Get ready for a challenging learning experience and an exciting technology ride into the future of patient care.
