

**Inpatient General Medicine Wards Overview**

During your 4-week rotation you will have the opportunity to:

- Perform a comprehensive history and physical exam on assigned patient and develop a prioritized problem list, differential diagnoses, and a comprehensive evaluation and management plan for each.
- Round daily on 3-4 patients and be an active participant in their ongoing care, including presenting patients during teaching rounds and writing daily progress notes and H&Ps.
- Participate in a team-based approach to patient care including collaboration with consultants, therapists, social workers, nursing staff, etc.
- Prepare and present a patient case, with the assistance of your senior resident, at a morning report session.
- Be exposed to a wide variety of didactic curriculum through daily noon conferences and weekly grand rounds.

**JFK Clinic Overview:**

During your 4-week rotation you will have the opportunity to:

- Gain skills in interviewing and performing physical exams, organizing and evaluating clinical data, developing differential diagnoses, developing treatment plans, and performing accurate and succinct case presentations.
- Participate in the longitudinal care for patients seen in our multilingual, multicultural residency primary care practice.
- You can expect to see a mix of annual well visits, management of chronic health conditions, acute care complaints, and hospital follow up visits during this time.

- Be exposed to a wide variety of didactic curriculum through daily noon conferences and weekly grand rounds.

Weekly sample schedule:

- Morning clinic hours are Monday, Wednesday, Thursday and Friday from 8 AM – 12 PM.
- Afternoon clinic hours are Monday, Tuesday, Thursday and Friday from 1 PM – 4:30 PM.
- Tuesday mornings are Academic Half Days for residents. You may have the opportunity to join in on these activities, depending on the timing and topics covered.
