

Hypertension Crisis Pathway

(BPs \geq 160 systolic or 110 diastolic x 2 times 15 mins apart)
Notify OB Doc, Start an IV, Monitor FHTs, Send Labs

- This is a physician pathway and to be used as a reference only for RNs.
- Notify physician prior to each step to allow them to specify their order.
- Once BP control is reached, repeat BP measurement q20 min for 2 hr, then q30 min for 2 hrs, then q4hrs.
