

## Instructions for Surgery

1. Nothing to eat or drink after midnight from the night before your surgery; you may brush your teeth the morning of your surgery, but do not intake any fluids.
2. Arrive to the surgery center at least two (2) hours prior to your surgery start time.
3. Bring your insurance card and picture identification with you on the day of your surgery.
4. If you are having outpatient surgery, you must have a driver present to ensure you have a safe way home after the surgery.
5. If you have any questions/concerns before or after your surgery, please contact your doctor at the following office # 314-872-9192 during regular business hours.
6. If you are over the age of 40, please contact the surgery center for preoperation testing.
