Airway/ RSI  
Introduction to Capnography  
CPAP in the pre-hospital environment  
Managing the difficult airway  
Peri-intubation problems  
Pre-hospital Respiratory Emergencies  
RSI in a nutshell

## Trauma:

Abdominal Trauma  
Burn  
Chest Trauma  
Chest Tubes  
Crush Injuries  
Massive transfusion protocol/ trauma transfusion  
Neuro- multiple lectures  
OB Trauma  
Trauma, Tourniquets, and TXA  
TXA

## Pediatric:

Blue Babies  
Pediatric Airway  
Pediatric Assessment  
Pediatric Emergencies

## Operations:

Ground Operations Safety Course/ LZ Class  
Preparing the patient for transport  
SOAR - Student Observation and Ride-Along Program

## Neuro:

Altered Level of Consciousness ALOC  
Intracranial Pressure Monitoring  
Neuro Anatomy  
Neuro Assessment  
Seizures  
Spinal Cord Injury  
Traumatic Brain Injury

## Specialty:

Anaphylaxis in EMS  
Bath salts  
Blood Transfusions in EMS  
Hot Topics in EMS  
Hypothermia Emergencies  
Induced Hypothermia  
IV Fluid Management  
Ketamine  
Obstetrical Emergencies  
Pharmacology for the EMT  
Pre-hospital pain management  
Preparing the patient for transport  
Snake Bites

## General Medical:

Central Lines in EMS  
Diabetic Emergencies  
Endocrine Emergencies  
EZ IO  
O2 Titration  
Renal Failure in EMS  
Sepsis in EMS  
Spinal Immobilization

## Cardiac:

Acute Decompensated Heart Failure  
12 Lead- Initial  
12 Lead- Advanced  
CHF  
Dysrhythmia  
IABP  
LVAD for Transport
