

# Immediate care for injured workers... and their employers.

## **Mercy Occupational Health helps you manage workplace injuries and Workers' Comp.**

If your employee gets hurt on the job, Mercy Occupational Health is ready to treat them and help protect you with swift, comprehensive care at any of our area Occupational Health or Urgent Care locations.

### **Mercy Occupational Health can:**

- Provide immediate examination and treatment, including post-accident testing, X-rays, lab and radiology service
- Coordinate emergency transport and care
- Perform drug and alcohol screenings (if mandated by company policy)
- Provide work status reports outlining work restrictions or accommodations
- Provide specialized follow-up care from Mercy physicians in every medical specialty, including physical and occupational therapy

*Your life is our life's work.*

## **Keeping Workers Healthy and Controlling Health Care Costs**

Mercy Occupational Health partners with companies to achieve a healthier workforce, reduce time lost to illness and injury, raise morale and lower insurance costs with services including:

- Physicals (pre-employment, annual, job-specific, immigration and more)
- Vaccinations and immunizations (flu shots, travel, pre-employment)
- Work-related injury care and management with locations throughout the region
- Drug and alcohol testing (including Random Pull programs)
- Virtual and on-site care, including first aid visits and biometric screenings
